Cybersecurity Analyst | System Administrator | Network Security | Incident Response

PROFESSIONAL SUMMARY

Networking and Cybersecurity BSc graduate (ISBAT University, GPA 4.4) with two years of active enterprise ICT experience supporting Windows and Linux infrastructure, Active Directory, enterprise networking, cloud platforms, virtualization, and cybersecurity operations. Hands-on experience supporting mission-critical ICT infrastructure at the United Nations Regional Service Centre Entebbe, maintaining over 99% system availability through proactive monitoring, incident response, and infrastructure support. Skilled in security monitoring, vulnerability assessment, endpoint administration, cloud technologies, and enterprise technical support. Six years of additional experience in QA leading compliance, reporting, and operational improvement initiatives, bringing strong analytical, documentation, and user training capabilities to technology environments.

CORE SKILLS & TOOLS

Security Operations: Threat detection, incident response, vulnerability assessment, SIEM (Splunk, Microsoft Defender), MISP threat intelligence, OWASP Top 10, Security Monitoring, Incident Response, Firewall Administration, Intrusion Detection Systems (IDS), Endpoint Security, Network Security, Security Awareness Training

Cloud & Virtualization: Microsoft Azure, VMware, Hyper-V, VirtualBox, Cloud Infrastructure, Microsoft Intune, MFA, conditional access, M365 security administration

GRC & Compliance: NIST, ISO 27001, HIPAA, risk assessment, policy documentation, access controls

Security Tools: Nessus, Nmap, Wireshark, Splunk, Microsoft Defender, MISP, Docker, GitHub, Streamlit
Wireshark, Nessus, Nmap, OpenVAS, Snort, Metasploit, OWASP

Automation & Scripting: Python, PowerShell, Bash

IT Service Management: ServiceNow, Jira, ICT Service Desk, Technical Support, Hardware & Software Support,

Systems Administration: Windows Server, Linux, Active Directory, Group Policy, Microsoft 365, User & Access Management, Patch Management, Backup & Disaster Recovery, Enterprise Systems Administration

Networking: LAN/WAN Administration, TCP/IP, Routing & Switching, VLAN, VPN, DNS, DHCP, Network Segmentation, Network Troubleshooting, Secure Network Architecture

Microsoft Power Platform: Power BI, Power Apps, Power Automate

PROFESSIONAL EXPERIENCE

Senior Executive Quality Assurance — Agri Exim Ltd · Permanent Contract

October 2022 – August 2026

Oyam (branch) (Uganda) · On-site

- Lead compliance reporting and operational data management across multiple production sites.
- Improved reporting accuracy by 30% through structured data validation processes.
- Reduced audit preparation time by 40% by improving documentation and compliance records.
- Produced operational reports supporting management decision-making.
- Trained more than 20 staff on reporting systems, documentation standards, and data integrity.
- Strengthened compliance with GMP and operational quality standards.

Volunteer IT Assistant

— Agri Exim Ltd

April 2024 – August 2026

Oyam (branch) (Uganda) · On-site

- Provide enterprise IT support across networking, systems administration, and cybersecurity operations.
- Administer Active Directory accounts, permissions, and access controls.
- Maintain wireless and VoIP infrastructure supporting business operations.
- Monitor firewall logs and investigate potential security events.
- Deliver cybersecurity awareness training to improve organizational security posture.
- Resolve hardware, software, and network incidents while supporting day-to-day ICT operations.

- Participate in internal security reviews and incident response activities.

Information Technology Intern — United Nations Regional Service Centre Entebbe

April 2025 – October 2025

Entebbe (Uganda) · On-site

- Supported enterprise ICT infrastructure for international training operations with high availability requirements.
- Maintained over 99% ICT system availability through infrastructure monitoring and timely incident resolution.
- Resolved more than 50 hardware, software, and network incidents across enterprise environments.
- Diagnosed and resolved LAN/WAN connectivity issues to improve infrastructure reliability.
- Supported firewall administration, intrusion detection, and security monitoring operations.
- Applied Windows and Linux system updates and security patches.
- Assisted backup validation and disaster recovery procedures to strengthen operational resilience.
- Supported Micro UAS training operations through drone system preparation and technical troubleshooting.

Quality Supervisor — Agri Exim Ltd · Permanent Contract

August 2019 – October 2022

Kanpala (Uganda)

- Managed quality documentation and compliance reporting.
- Improved record traceability through digital documentation systems.
- Reduced reporting errors through standardized inspection processes.
- Supported internal audits and quality improvement initiatives.
- Trained staff on quality procedures and documentation standards.

EDUCATION

B.Sc. Cybersecurity — ISBAT University

November 2026 · GPA 4.4/ 5.0

Diploma in Cybersecurity — Alison

2025

B.Sc. Chemical Engineering — Kyambogo University

2018

CERTIFICATIONS

Cybersecurity and IT Certifications

- CCNA Practice Certification
- CompTIA Security Practice Certification
- United Nations Information Security Awareness

Security, Safety, and Emergency Preparedness

- Preparing and Responding to Active Shooter Incidents
- Drone Pilot Certificate

Governance, Ethics, and Compliance

- United Nations Ethics and Integrity
- Preventing Fraud and Corruption at the United Nations
- Prevention of Sexual Exploitation and Abuse

Professional Development and Training

- Internship Completion Certificate

Quality Management and Auditing

- BRCGS Internal Auditor

PROJECTS & LABS

Home Lab:

- Active Directory simulation with Windows Server, Ubuntu VMs, and M365 configuration.
- Configured Sophos and pfSense firewalls in enterprise network simulations.

- Built SIEM monitoring environments using Elastic Stack and Kibana for security event analysis.
- Deployed IDS/IPS solutions including Snort, Suricata, and Wazuh for threat detection.
- Performed vulnerability assessments using Nmap, OpenVAS and Nessus.
- Designed and tested secure network topologies using Cisco Packet Tracer.
- Built Splunk dashboards and simulated threat detection workflows in the Commonwealth Bank cybersecurity simulation.
- Conducted risk assessments and developed security awareness materials in the PwC Switzerland simulation.
- Performed cybersecurity threat analysis and developed Python scripts for vulnerability scanning in the AIG Shields Up simulation.
- Practiced phishing mitigation techniques and security compliance processes in the Mastercard cybersecurity simulation.

ADDITIONAL INFORMATION

Languages

- English: Fluent
- French: Basic proficiency

Driving & Riding

- 4WD Vehicles: Experienced
- Motorcycles: Experienced
